Guevara Believed Guerrilla Chief

BUENOS AIRES, Sept. 7 (UPI)—A former Cuban diplomat said last night he believes Cuban Industry Minister Ernest (Che) Guevara has "gone underground" to direct guerrilla warfare against non-Communist governments in the New World.

Odon Alvarez de la Campa, Counselor of the Cuban Embassy in Madrid until March, said the Argentine-born Guevara has been designated "supreme commander of Red subversion in South America.

Alvarez said guerrilla warfare now in progress in Guatemala, Peru, Colombia and Venezuela shows signs of having been inspired by Guevara.
